Saved by Tefillas Todah

I'm coming from a dark place where it's really hard to be able to focus on the good. But I can now say, that if not for the Tefillas Todah I wouldn't be here anymore! Hashem I'm really trying to understand why I've got so many hardships. Thank You Hashem, if not for this group I would long have given up.

The Exact Time

I needed an urgent appointment for my daughter, at a very specialized dermatologist that my insurance covers, and the office is just two blocks away from my home. There were very few appointments open, even for a month ahead. I tried anyways to check when she will have the next appointment available. There was exactly one slot today, and for the exact time my daughter comes back from school! Thank You Hashem!

A Gift from Hashem

I had some bills that we needed to pay today and didn't even have half the amount. I knew Hashem is going to send us the money on time to pay, with no need to ask for help. Today, we received unexpected gifts from heaven, totaling the full exact amount we needed! Thank You Dear Hashem!

Thought of the Week

In פרשת ויצא it is written that when Yehuda was born, Leah said, ותאמר הפעם אודה את, מסכת ברכות ד' לא היה אדם שהודה להקב"ה עד שבאתה לאה. From the beginning of the world's creation, no man ever thanked Hashem up until Leah thanked. However, in the past, it says מזמור שיר, מוזמור שיר, already said, ליום השבת טוב להודות לד. Indeed, says the זוהר הקדוש, that אדם הראשון said that it is good to thank Hashem in general. But Leah thanked for a very specific matter and that's what brought it to the next level. Therefore, a Jew must always remember that when Hashem gives him something, no matter what, he must always thank Hashem and it will bring him closer to Him.

Faulty Sensor

Midway of a 14-hour trip, the oil light and check engine light went off. The message read, "Low oil pressure, stop engine now". I said, "Thank You Hashem for all the times I did not have any issues with my car, and I will thank You in public if all ends well". I went off the next exit and found a mechanic. He checked the oil levels and said that all is okay, just a faulty sensor! Thank You Hashem we arrived OK!
